VIDEO MEETING GUIDE

Format: Our goal is to provide a meeting that is as similar as possible to an in-person experience. Members of the public will be given opportunities to speak at the start of the meeting and before each agenda item.

**NORTH SHORE LIFE
LAKE BLUFF STYLE**

We will use Zoom Webinars for this meeting. In this product:

- Panelists (Trustees, Staff, etc.) control their own ability to speak and transmit video.
- Attendees (members of the public) can see the meeting, but cannot transmit audio or video unless recognized by the chair. (See below for how to be recognized.)
- One or more staff members will act as hosts and help organize the meeting.

Rules:

- [An online guide to using Zoom is available here.](#) Please know that the Village cannot provide technical support. [You should test your ability to use Zoom ahead of time.](#)
- Ideally, all participants should join using the Zoom application so that they can experience the full meeting. While participants may call-in, this is a lower quality experience.
- All participants should use their real name (first and last) to identify themselves in the meeting. People using aliases or pseudonyms will not be recognized.
- All participants should stay muted unless they are actively speaking. Your mute may be enabled remotely if you are echoing or transmitting background noise.
- Elected officials participating with video should keep their video enabled at all times. Village Staff should disable their video unless they are participating in a discussion.
- In Lake Bluff meetings, text chat and private messaging features are disabled.

Public Participation: To participate in the meeting, members of the public can:

- Submit a comment or question using [Zoom's Q&A feature](#). Written items will be read aloud and answered as necessary. You can also ask to be recognized by the chair. You will be able to speak directly to the Board and may choose to send video.
- Phone users can dial *9 and will be placed into a queue to be recognized by the chair.
- Email comments in advance to vlb@lakebluff.org. Emails should list the meeting and date in the subject line (e.g. "April 13 Village Board meeting") and should identify the author by name. Emails will be shared electronically, and those that are 200 words or shorter will generally be read aloud by a staff member during the appropriate comment period.

Village of Lake Bluff – Video Meeting Guide

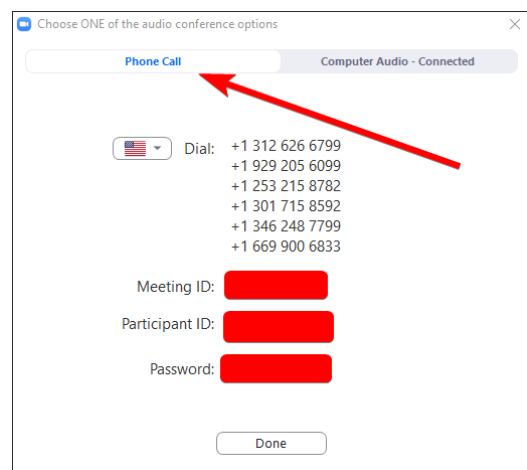

Technical setup. The ideal attendee has:

- **Device:** The ability to transmit and receive video.
- **Audio:** Clear audio that does not echo or transmit background noise.
- **Connection:** A stable, high-quality internet connection.

	Device	Audio	Connection
Ideal	Zoom app on a desktop or laptop	A headset with microphone	Wired connection via Ethernet
Okay	Zoom app on a mobile phone or tablet	A headset (using built-in microphone) Using a phone to dial in	Connected wirelessly via WiFi
Not ideal	Calling into conference line (without Zoom app)	Computer speakers (using built-in microphone) Speakerphone on phone	Connected via 4G / LTE (cellular data) Using a phone to dial in
Tips	<ul style="list-style-type: none"> • Use a stable surface so that your video doesn't move or shake. • Have a “boring” background that isn't distracting (e.g. others moving around). 	<ul style="list-style-type: none"> • Pick a quiet place as your workspace. • Keep yourself muted when you are not talking. 	<ul style="list-style-type: none"> • If you have to use WiFi, try to pick a workspace close to your router. • Discourage other household members from streaming video during the meeting.

Tips:

- You will appear more natural if you look directly at your camera when speaking. It may help you to put your camera near your monitor.
- While muted, you can [hold the spacebar to unmute yourself temporarily](#) (push-to-talk, like a walkie talkie). It will mute you again as soon as you release the spacebar.
- If you do not have a headset, you can use the Zoom application on your PC but [dial-in using your phone](#). This will let you see and share video, and also let you control if you are muted using your PC. This may reduce echo and background noise for those individuals without headsets.

Joining via video but using a phone call for audio.
